

Home Maintenance Log

The number of household tasks that relocation generates is bewildering, and when you move, you don't just change your home, you also lose valuable service and maintenance contacts and records. This checklist allows you to keep track of those details, whether for your own use, for reimbursement or for use in a home or appliance sale. It also forms a valuable part of your home inventory for insurance purposes.

Photocopy and hang a copy where it can be found easily (the back of the utility room door or the side of an appliance works well), and don't forget to enter scheduled service dates into your calendar.

- Appliance/Item: _____
- Warranty # and info: _____
- Service Phone #: _____
- Warranty expiration date: _____ (enter this date in your timeline. Set a reminder to renew warranty or schedule service before warranty expires).
- Installation/activation date: _____
